Findings

Findings

CRITICAL New

Inbound replication from DC01 to DC03 is stalled

Replication

Description

DC03 has not completed inbound replication from DC01 for 12 minutes (error 1722, RPC server unavailable).

Recommendation

Check RPC connectivity from DC03 to DC01, then run repadmin /syncall DC03 /AdeP.

Threshold	Stalled for
15 min intra-site	12 min

Evidence (2)

OBJECT	VALUE	STATUS	NOTE
DC03 from DC01	error 1722	Critical	RPC server unavailable
DC03 from DC02	OK	OK	

Troubleshoot error 1722

WARNING

Service accounts in privileged groups have very old passwords

Identity

Description

Three service accounts have a password older than three years and can reach Tier 0.

Recommendation

Move them to group-managed service accounts, or rotate the passwords and remove the group memberships.

Evidence (3)

OBJECT	VALUE	STATUS
svc_old_erp	2210 days	Critical
svc_sql	1460 days	Critical
svc_backup	980 days	Warning

Affected (3)

`svc_sql` `svc_backup` `svc_old_erp`

WARNING

Two privileged accounts have not logged on for months

Identity

Recommendation

Disable or remove adm.verdi and svc_old_erp.

Affected (2)

`adm.verdi` `svc_old_erp`

WARNING Worse **NTDS volume is low on DC03** Capacity

Description

18% free on the NTDS volume.

Recommendation

Extend the volume or move the transaction logs.

Evidence (2)

OBJECT	VALUE	STATUS
DC03	18% free	Warning
DC02	82% free	OK

Affected (1)

`DC03`

INFO Resolved **No data from DC06** Monitoring

Description

The APAC DC returned no performance data in this run.

Affected (1)

`DC06`

Events

Recent events (24h)

critical (2)

✕ `2026-10-17 14:32` `[DC03]` Replication failure from DC01 (error 1722)

✕ `2026-10-17 09:30` `[Auth]` Sustained spike in failed logons (1200/min from one egress range)

warning (2)

! `2026-10-17 14:18` `[DC02]` LDAP bind time above 80 ms (60 s average)

! `2026-10-17 13:55` `[DC03]` NTDS volume 82% used

ok (2)

✓ 2026-10-17 12:42 **[Backup]** Nightly DIT snapshot completed in 38 minutes

✓ 2026-10-17 02:00 **[Sites]** Site link cost recalculation complete

info (2)

• 2026-10-17 10:05 **[Patch]** Cumulative update deployed to 5 DCs

• 2026-10-17 08:14 **[GPO]** Policy processed across 5 DCs in 12 s
