In this view

A card grid filters ONE table (the one named by -TargetTableId, here the table below). Single select by default; -MultiFilter lets you pick several values. Both card grids and the table sit on this one view.

Status (single select)

Open 40 | In progress 20 | Closed 20

Team (multi select)

Cloud 27 | Identity 27 | Network 26

Click to filter

Search and badges

In this view

Press / (or click the box in the menu bar) and type two or more letters: try "vpn", "T-1010" or "stale". Results group into Pages, Findings and Tables (with a hit count). The red and amber pills on the menu show the worst finding at or below that item.

Findings (they feed the menu badges)

CRITICAL **VPN concentrator has a stale certificate** — Network

Description

Expired two days ago.

Recommendation

Renew and deploy.

WARNING **Stale privileged accounts** — Identity

Description

Three accounts have not signed in for 180 days.

Recommendation

Disable them.

INFO **Backup retention is 14 days** — Cloud

Recommendation

Consider 30 days.
