GLOBAL TILE A

99.9%
GLOBAL TILE B

Styles

In this view

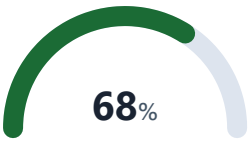

Pick the style by the question. Compact tile: a number. Big number: the one headline. Gauge: a value against a maximum with bands. Verdict: the overall answer and how many findings of each severity. Score: a ring out of a maximum with facts and a change. Maturity: which level, and what the next one needs.

Level 2 of 5 · Monitoring is in place.

1 Initial · **2 Managed** · 3 Defined · 4 Measured · 5 Optimised

Monitored.

To reach level 3 (Defined)

- ○ Write the build standard
- ✓ Alert on every failure

Trends

In this view

Previous plus TrendIsGood draws an arrow and colours it: more lockouts is bad, more uptime is good. Sparkline adds a small history (line, area or bars). Format controls how the number reads.

Clicks

In this view

A tile with an Action is a button: it opens the view that holds the table and filters it. Click "Critical" and the table at the bottom of this view filters to critical alerts (from another view the same click would first open this one).

Summary 3

Where strips appear

Summary 2

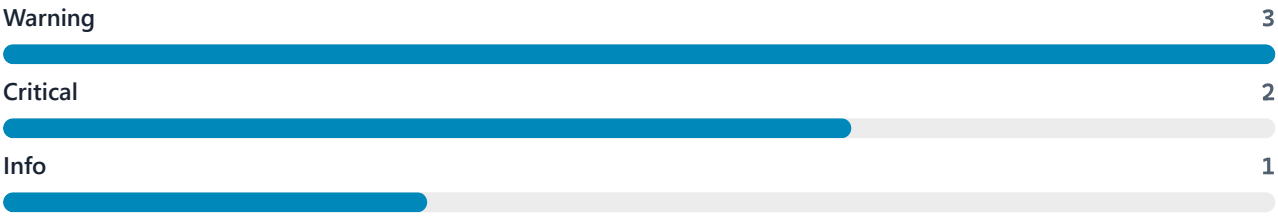

10	20
BRANCH TILE 1	BRANCH TILE 2

Where strips appear › First

In this view

Top to bottom: the two GLOBAL tiles, then the BRANCH strip (declared at Strips with -NavScope Subtree, so it is on every view under Strips), then this note. This view has no strip of its own.

VIEW TILE 1

2
VIEW TILE 2

In this view

Here a third strip appears under the branch strip: a VIEW strip declared at Strips/Second with the default (exact) scope. It shows on this view only.
